CONTRACTOR(S): As Listed in Award

CONTRACT NO(S): As Listed in Award

SUBJECT: Mini-bid Pricing Clarification

TO ALL STATE AGENCIES AND OTHERS AUTHORIZED TO USE STATE CONTRACTS:

Language in the above referenced award has been updated to provide more detailed, clear instructions to contractors and Authorized Users in regards to Mini-bid pricing and Consumer Price Index (CPI) adjustments. The updated CPI language may be found on page 27. The updated Mini-bid pricing pages are located on pages 40 and 41. The updated award is now available online and may be viewed here:

<http://www.ogs.state.ny.us/purchase/snt/awardnotes/7101001510can.pdf>

When submitting pricing for a particular project under the Mini-bid process, contractors are required to include hourly rates and number of work hours in two parts: A) for an initial 60-day period and B) monthly thereafter. Part B hourly rates are to be the same or lower than those in part A. All rates submitted cannot exceed the contractor's "Not to Exceed" rates posted in the price list beginning on page 10 of the backdrop contract.

The "Not to Exceed" rates are firm for the life of the contract. However, on each anniversary date of the mini-bid contract **between the contractor and a specific agency**, the contractor may be granted an increase or decrease in its contract (mini-bid) pricing dependent upon fluctuations in the latest published copy of the Consumer Price Index.

All other terms and conditions of the award remain the same.

SUBJECT: GUIDELINES ON PROCUREMENT LOBBYING

ALL STATE AGENCIES AND OTHERS AUTHORIZED TO USE STATE CONTRACTS:

Please note the following update to the mini-bid process of this contract:

GUIDELINES ON PROCUREMENT LOBBYING

Summary Of Policy And Prohibitions On Procurement Lobbying:

Pursuant to State Finance Law §§139-j and 139-k, this **mini-bid solicitation** includes and imposes certain restrictions on communications between a User Agency and an Offerer during the mini bid procurement process. An Offerer/bidder is restricted from making contacts from the earliest notice of intent to solicit offers through the mini bid process [**normally when a Project Definition is released**] through the final award and approval of the Contract by the User Agency and, if applicable, the Office of the State Comptroller. The restricted period shall limit contact to other than designated staff unless it is a contact that is included among certain statutory exceptions set forth in State Finance Law §139-j(3)(a). Designated staff shall be identified on the first page of this mini bid solicitation [**Project Definition**]. User Agency employees are also required to obtain certain information when contacted during the restricted period and make a determination of the responsibility of the Offerer/bidder pursuant to these two statutes. Certain findings of non-responsibility can result in rejection for contract award and in the event of two findings within a four (4) year period, the Offerer/bidder is debarred from obtaining governmental Procurement Contracts.

Further information about these requirements can be found

Therefore, the attached Contract Compliance Checklist has been created to assist Authorized Users with a mechanism for monitoring Pest Management Services as required by the Contract.

Pest Management through IPM
Group #71010, Award# 01510**

Authorized Users (AU) or agency representative uses of the Integrated Pest Management contracts have an obligation to monitor contract performance and compliance. It is very important to read all the terms and conditions of the contract to understand what the contract will and will not provide.

Contract performance and compliance is the using agency's responsibility!

OGS has developed this checklist to assist you in the required task of monitoring contract performance.

BACKGROUND

It is the intent of this contract to maximize the use of pest management interventions *other than* pesticide application. Following the initial Comprehensive Inspection, the contractor shall develop an overall Integrated Pest Management (IPM) Plan and Service Schedule for the User Agency with details regarding each building. A critical aspect of the plan is the establishment of a Monitoring Program that regularly identifies causative conditions and infested areas, and assesses population level. Both comprehensive inspections and monitoring shall be continued throughout the duration of the contract. Upon approval from Authorized User, the IPM Plan and Service Schedule should be implemented by the contractor within five (5) business days.
