Cancellation will become effective the first of the month following the 3-month notification. The minimum term of the contract shall be twelve (12) months. This provision does not affect the State’s right of suspension or cancellation contained in the "Suspension of Work" and "Cancellation" clauses in Appendix B, OGS General Specifications.

If mutually agreed between the Procurement Services Group and the contractor, the contract may be renewed under the same terms and conditions for an additional period not to exceed twenty-four (24) months. Price decreases or discount increases are permitted at any time.

SHORT TERM EXTENSION:
In the event the replacement contract has not been issued, any contract let and awarded hereunder by the State, may be extended unilaterally by the State for an additional period of up to one month upon notice to the contractor with the same terms and conditions as the original contract including, but not limited to, quantities (prorated for such one month extension), prices, and delivery requirements. With the concurrence of the contractor, the extension may be for a period of up to three months in lieu of one month. However, this extension terminates should the replacement contract be issued in the interim.

ESCALATOR CLAUSE FOR TWO YEAR CONTRACT:

Prices quoted are based on the manufacturer's established price list in effect at the time of the bid opening and be for a period of one year from the commencement date of the contract. Only one request for price escalation will be considered by the State. Such request will not be entertained any earlier than twelve (12) months nor any later than eighteen (18) months after commencement of the contract. Any price increase must be based on the manufacturer's established price list in effect at the time of the increase. Any increase shall be proportionate to the discount formula reflected in the original bid price. No escalation of price shall be allowed until such request has been reviewed in this office, and the contractor notified in writing of acceptance. Price decreases or discount increases are permitted at any time.

In the event the State finds the increase to be excessive, the right is reserved to unilaterally terminate the contract upon 90 days notice to the contractor.

The State must be notified of any and all price reductions subsequent to the contract commencement as evidenced by the manufacturer's established price list, and any such reduction must be extended to the State.

PRICE SHEETS AND CATALOGS:

Contractor shall be required to furnish, without charge, catalog and price lists identical to those accepted with their bid, including any changes (additions, deletions, etc.) pursuant to the contract, to authorized users which request them. Catalogs and price lists provided must reflect all products excluded from the resultant contract either through the omission of those portions or by obvious indications within the catalogs and price lists.

Upon request the contractor shall assist authorized users in the use of catalogs and price lists.

RESERVATION:

The State reserves the right to negotiate lower pricing, or to advertise for bids, any unanticipated excessive purchase. An "unanticipated excessive purchase" is defined as an unexpected order for a contract product(s) totaling more than $50,000.00.
