CONTRACT NO.(S): P006142

SUBJECT: IBM Corporation – Modified Software Pricing Matrix

TO ALL STATE AGENCIES AND OTHERS AUTHORIZED TO USE STATE CONTRACTS:

IBM has modified the format in which they will price software on middleware systems for Passport Advantage Products.

The new pricing matrix will be using Processor Value Units (PVU’s)-to price out software where applicable.

Initially the PVU will be priced at 1/100th of the current product price and will use new part numbers.

For example: product D53R4LL IBM Server for Multiplatform Processor License was $11970.00. The new PVU part number is D55T0LL priced at $119.70-the authorized user will be invoiced for a qty of 100. The invoice total will still equal $11,970.00

IBM is modifying the software charges to accommodate multi-core processors.

The Authorized user and IBM will need to determine the amount of processor power required by utilizing the PVU calculator available on the IBM Passport Advantage website.

A cross reference for old part numbers to the new PVU part numbers has been added to the OGS website for the above mentioned contract.

All other terms and conditions remain the same. Please mark all vouchers accordingly.
